

POWER FAILS. WE DON'T.

*Partner with RefurbUPS to Protect Your
Mission Critical Systems and Data.*

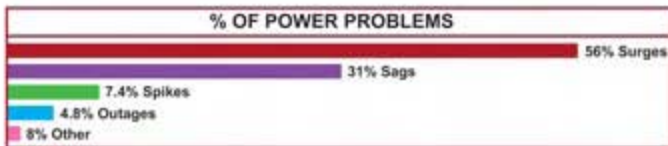

Power Security for a Risky Power Grid.

Your business relies on expensive electronics – everything from PCs, servers and phone systems to switches, routers, storage arrays, and even security, alarm, and video DVR systems.

The risk of power problems is a fact of modern life. Millions of dollars of crucial electronic equipment is ruined every year by surges, spikes, blackouts and brownouts. Our aging power grid is struggling to keep up with increased demand, while heat waves, hurricanes, lightning storms, tornadoes and other weather events wreak havoc on our utility grid every year.

Don't put your business equipment at risk. Protect your critical systems from damage with a proven power protection solution from RefurbUPS.com.

Our Difference is Focus.

Power protection is our only business. RefurbUPS provides the **Best Value** for your power protection needs, offering the widest selection of refurbished APC UPS systems in the market, plus industry proven, top quality, brand new replacement UPS batteries.

As the leading US-based distributor of refurbished APC UPS solutions and brand new ups replacement batteries, you can rely on our large inventory available for immediate shipment at low warehouse direct prices. **We Deliver...Guaranteed.**

According to the Electric Power Research Institute, the total business cost of U.S. power grid outages is \$100 billion per year.

With more than 10 years of experience supplying refurbished APC power protection solutions to organizations ranging from state and federal government agencies, military and police forces, fire and EMS services to healthcare institutions and hospitals, universities and schools, as well as manufacturers and corporations from large to small, we can tailor a solution to fit your need.

The hundreds of thousands of our UPS's that are currently at work protecting equipment across the country and around the globe speak for themselves. We are power protection experts, and we work hard to make our experience work for you, with leading support and an extensive UPS knowledge base available online 24/7.

Performance Guaranteed: Taking the Risk Out of Buying Refurbished Power Protection.

RefurbUPS is the nation's largest online distributor of refurbished APC UPS systems. With our more than 10 years of experience supplying power protection products to leading businesses, educational institutions and government organizations, we are experts in this business.

At RefurbUPS, we understand your power concerns like no one else. That's why we're proud to offer **Performance Guaranteed** UPS solutions for UPS power protection equipment, backed by our industry leading advanced replacement warranty.

In fact, every UPS we sell undergoes our rigorous 10-step UPS Refurbishment and Testing process before earning our Performance Guaranteed stamp of approval. That is how we can offer a comprehensive advanced replacement warranty.

No matter what industry or type of business you are in, our exclusive Performance Guaranteed UPS solutions can help simplify your buying process, maximize your buying power, and help reduce the cost of your total power protection infrastructure.

Our Performance Guaranteed solutions offer the performance you need, along with peace of mind and savings. **We Deliver...Guaranteed.**

Our Performance Guaranteed Refurbishing Process is Second to None

It all starts with our State-of-the-Art Refurbishment facility dedicated solely to reconditioning and refurbishing UPS technology. Our facility is among the largest and most advanced, with the highest volume in the industry.

Our factory trained technicians are among the most experienced in the industry, and our partnership with EnerSys, a world leader in battery technology, ensures that you get the best quality, brand new batteries.

It's all designed to ensure that you get the highest degree of reliability and performance possible. For over a decade, we've provided companies like yours with the market leading power protection solutions you need to maximize the UPS power equipment technology investments you've already made.

All UPS Batteries Are Not Created Equal

At RefurbUPS.com, we only sell proven quality UPS batteries. Batteries do vary from one manufacturer to another and RefurbUPS offers only proven, industry leading brands. Through our longstanding strategic partnerships and volume purchasing, we are able to offer you the industry's 'Best Value' for new UPS replacement batteries.

Our New UPS replacement battery offerings are backed by our extensive experience in UPS battery replacement along with our stringent testing and quality controls. All our batteries are proven in high demand UPS applications. We carry New UPS replacement battery solutions for APC, Eaton\PowerWare, Tripplite, Liebert and many others.

Under typical usage, UPS batteries should be replaced every 2-3 years -- but you don't want to wait until the lights go out to find out if your battery is still good. Chances are, if you don't know when your batteries were replaced, they need to be.

As the market leader, our large volume ensures factory fresh batteries for every application. With RefurbUPS, you don't need to worry that your replacement UPS batteries might be weak or old. They are guaranteed to meet or exceed OEM specifications.

And as a courtesy to all our customers, RefurbUPS also offers environmentally responsible recycling and disposal for your old, dead batteries at no charge.

Freshness Dated for Long Life.

Every replacement battery we sell is new, fresh, top quality, and ready to deliver optimal performance for years in your UPS systems. Our rigorous inventory controls and high volume sales ensure that our battery inventory turns over quickly, so the UPS batteries you buy from us, for less, will always be as factory new as possible.

It's simple. We take the risk out of buying new replacement batteries. When you choose RefurbUPS as your replacement battery supplier, you'll get all the brand new, top quality replacement batteries you need fast, without paying a premium OEM price.

PowerSWAP™ - A Bright Solution For Enterprise and Datacenter UPS Battery Replacement

PowerSWAP™ is designed to revitalize your mission critical UPS battery system and restore your protected run-time, while getting the most out of your IT budget. Keeping your UPS systems ready to perform requires timely battery replacement.

RefurbUPS has extensive hands on experience, a vast knowledge base, large inventory, and industry proven replacement battery solutions for most leading UPS systems. We make the whole process as simple and painless as possible. Here's how it works:

With PowerSWAP™, we ship you new replacement battery cartridges specifically calibrated for your system. Each set comes as a packaged rack mount battery pack, ready to slide right in to your UPS system. You just pull out your old battery pack, install the new ones, and put the dead batteries back into our specially designed, state-of-the-art packaging for free return and recycling. It's fast, economical and convenient, and everything is included.

Free Recycling.

UPS batteries contain corrosive acids and toxic metals that can be costly and challenging to dispose of safely. That's another reason to make RefurbUPS your power protection solution partner. When we sell you new replacement UPS batteries, we will handle the complete recycling of all your dead ones for you for free. There's no extra charge for this valuable service that will benefit you and the environment.

It's just one more way we make it easy to do business with us.

We're Open For Business, 24x7.

Any time you need to add new backup power capacity, replace an old UPS system or refresh your UPS batteries, there's no time to lose. That's why you'll be glad to know that you can check current inventory and place an order with RefurbUPS on a 24 hours a day, seven days a week basis. Our advanced technology also lets you track the status of your order day and night online. We provide same-day shipping, so there's simply no faster way to get the reliable power protection solutions you need.
